

# Why I 'm so tired!

Over the last few weeks I 've been telling myself : « it must be because of the change in temperature, pollution in the air, obesity and a dozen other reasons » that I ask myself if life is really worth living !!!

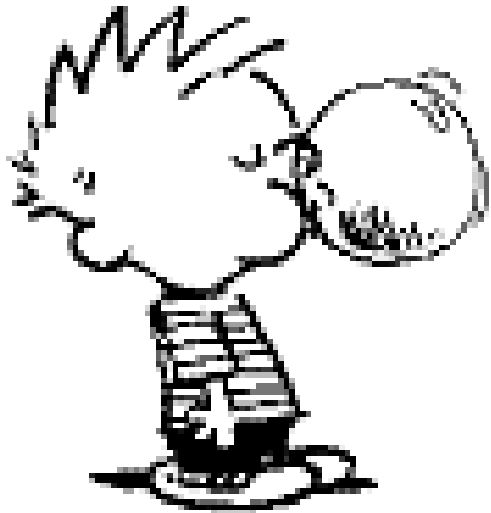

**But, I have discovered that  
all these reasons have  
nothing to do with it!**

**This country has 27 million inhabitants of which 11 million are retired, this leaves only 16 million to work.**

POOF

6 million go to  
school,  
which means only  
10 million are left  
to do the work.

5 million are  
unemployed and  
4 million are  
Public Servants,  
which leaves  
only one Million  
to do the work.

**There are 620,000  
people in  
the hospital  
and 379,998  
in prison.**

**Therefore, only 2 people are left  
to do all the work:  
you and me.**

**And you are sitting on  
your bot reading this  
stupid joke.**

**NO WONDER I 'M TIRED!**
